Aman Trechsel – 29/11/2023

Hey team,

I am mailing you to give a heads-up about a change I have made to our project website. I was unable to make changes to the website without changing the access key as I had to update the token in order to add the new use case.

The new access key is: NewAccessKey123. Please make sure to update your bookmarks on your end as the old key won't work anymore. I'm sorry for the inconvenience as I couldn't make the new key the same as the old one.

I hope this isn't as much of an inconvenience as it might initially seem. The modification was necessary to accommodate the integration of a new use case into our project website, which required an update to the access key.

If you encounter any issues or have questions related to this change, please don't hesitate to reach out. I am more than happy to assist and address any potential concerns.

Thank you for your understanding and cooperation. I appreciate your dedication to the success of our project and am looking forward to working together.

Best regards,

Aman Trechsel
